## LITERA GEAR COMPOSITION AND PRICING 2017 ACADEMIC YEAR

This policy is part of the Standard Policy documents of Zee Learn Ltd for Mount Litera Zee School. Contents are proprietary and confidential and cannot be shared under any circumstances without the written permission of Zee Learn Ltd

## Preface

We are glad to introduce the Litera Gear for AY 2017 with some changes to the configuration for certain classes. These changes have been incorporated post feedback gathered throughout the year from schools, principals and teachers.

We continue our commitment to pass discounts of 15% on MRP, for all text books in Litera Gear, except for NCERT textbooks, wherein a discount of 3% on MRP will be passed onto the schools. All the discounts have been taken into consideration, while mentioning the final price of the kit.

Basis on the feedback received from the schools, we have decided to keep notebooks out of the Litera Gear for academic year 2017. However, schools who want, notebooks can order the same online in e mount litera.

MLZS pre-primary will have a new upgraded curriculum from academic year 2017. This curriculum will provide a new age learning solution for schools. This curriculum will bridge the gap from pre-school to school which includes updated content for writing , communication skills , preparing them for the digital world etc.

## Changes for Academic Year 2017 Litera Gear Components

### Class 5, Class 6 and Class 7

**Digital Citizenship Programme:** This programme helps familiarize students with the requirements of a digital lifestyle in a digital world. At MLZS, we realized that we need to go beyond computers to prepare the Mount Literans for a world that can throw up surprises like demonetization, cashless transaction and cyber bullying. This programme is offered to Mount Literans from grades 4 to 6. Teachers are equipped with PPT-based lecture notes for all the sessions. This year we are launching student workbooks for grades 5, 6 and 7 and the workbooks will extend to grades 4 and 8 in 2018. As some of the schools are already conducting the Digital Citizenship Programme and are participating in the Digital Literacy Week Celebration, the workbooks will be an additional step for making the programme more accessible for the teachers and students.

### Class 4, to Class 8

**Financial Literacy Programme:** In keeping with the initiatives by the CBSE, we have created a structured and innovative Financial Literacy Programme for 5 levels. The need for financial literacy among students has been observed by various education boards and think tanks universally. Although some organizations like the RBI, NISM, SEBI and IRDA offer modules on financial literacy, we developed a customized programme with 5 levels that address the key strands of financial literacy like Money and currency, Personal Finance and Insurance, Banking Service, Business, Economics, Financial Protection, Financial Planning and Career. Each level has a student workbook and a teacher handbook providing concept overview, activities and solutions. We believe that this well-planned programme will empower students in Financial Literacy Olympiads as well.

### Computer Masti (Classes 1 to Class 8)

Computer Masti helps to develop 21st century skills of critical thinking, collaboration, communication and creativity are addressed in the lesson content and supplementary activities. Each book has glossary page at the end explaining all the key technical terms covered in the book. Each lesson focuses on specific concepts and associated skills. These concepts are

selected such that they lay a strong foundation for learning computers, contribute towards general intellectual development, and are age appropriate and child friendly.
